MIKOYAN BEGINS A FINAL ROUND OF TALKS BEFORE STARTING HOME TUESDAY

WASHINGTON (AP)—Soviet Dep. Premier Anastas I. Mikoyan met with the State Department's top foreign trade official today in a renewed effort to break down U. S. barriers against the sale of strategic goods to the Soviet Union.

Mikoyan, accompanied by Ambassador Mikhail Menshikov, began his final round of talks here with Dept. Undersecretary of State Douglas Dillon. He was scheduled to follow up with a second trade session with Commerce Secretary Lewis Strauss.

Between those two conferences he was due at the National Press Club for a last question and answer session with reporters.

Mikoyan renewed on a nationwide radio-TV network Sunday night the Soviet demand that the Western powers pull out of West Berlin. He described as "impossible" a suggestion that the Soviet proposal for a West Berlin free city be broadened to include Communist East Berlin as well.

The Soviet leader faced another and final round of Washington questioning today at a National Press Club luncheon.

His schedule included a conference with the State Department's top economic expert, Deputy Under Secretary Douglas Dillon. It was expected that he would also talk Soviet-American trade during the day with Secretary of Commerce Lewis Strauss. He has urged increased U. S.-Soviet trade in a series of meetings with bankers and businessmen during a coast-to-coast tour.

He leaves for Moscow by way of New York Tuesday.

Despite the lack of any new suggestions from Mikoyan for breaking the Berlin deadlock, U. S. officials believe that an East-West foreign ministers' conference on German issues is probable in a few months. They will begin consultations with the NATO allies this week in an effort to develop detailed Western proposals.

Mikoyan's performance before the TV cameras — NBC-Meet the Press—added up to an unbending defense of every Soviet policy or action about which he was asked by a panel of four newsmen. His replies covered support for Red China over Formosa, crushing of the anti-communist revolt in Hungary and the handling of American news in the Soviet press.

"We have extended the invitation," Castro's statement said, "so that the truth of what is happening in Cuba may be told to all citizens of every country in America. We believe that if the truth is known any misunderstanding that has occurred in recent days regarding the situation in our country will disappear."

Castro has called for a half million Havana residents to turn out Wednesday to back his regime's rejection of foreign criticism of the speedy execution of those convicted of killing opponents of ex-dictator Fulgencio Batista.

The auxiliary Roman Catholic bishop of Havana, Msgr. Alfredo Muller, Sunday night endorsed the executions, reported to have reached 207 throughout Cuba.

Appearing on a television interview with revolutionary chief Fidel Castro, Bishop Muller said he personally opposes capital punishment but that the church permits it in some instances.

VIRGINIA FACES TEST

RICHMOND, Va. (AP)—Virginia's prolonged, and so far successful struggle to thwart integration in its public schools faced another test today.

The Virginia Supreme Court of Appeals was to hand down a decision on the validity of the state's anti-integration laws. The ruling will help determine Virginia's future course in the school crisis.

TOT LOST IN HILLS

LEBANON, Mo. (AP)—Despite waning hope, a massive search for a farmer's 3-year-old son continued in a hilly, densely wooded area today.

If he is alive, Willard Eugene Jones Jr. had to survive Saturday's 19-degree temperatures in this Ozark Mountain region.

Two Families Burned Out by Greensburg Fire

GREENSBURG, Pa. (AP)—Twelve members of two families fled Sunday night as flames destroyed their nine-room frame house here. Firemen estimated the loss at \$15,000.

Left homeless by the fire were Mr. and Mrs. Raymond Andorrio and their four children and Mr. and Mrs. John Delambo and their four children. Cause of the blaze was not determined.

Harvester Co. Plants Are Resuming Today

CHICAGO (AP)—Most of the International Harvester Co. plants resume operations today, marking the end of a 67-day strike by some 37,000 United Auto Workers against the big farm implement firm.

The union's rank and file members ratified a new three-year contract over the weekend, formally ending the long and costly strike. Seymour Kahan, international representative of the UAW's Harvester department, said the voting by members of 33 union locals showed about 90 per cent favored acceptance.

The contract agreement was first reached last Wednesday by negotiators for the company and union. On Friday the UAW Harvester Council, delegates from 33 locals at 15 Harvester plants and 10 depots and warehouses, approved it.

Stating that this area will receive an increasing number of tourists due to the factors listed above, Stern said Warren must decide the kind of resort industry it wants and takes steps to control the quality and type of attractions. Eventually the area will have to establish an identity to enlarge its drawing power and create some type of agency to deal with the problems of the industry.

In this regard he advised that local businessmen work closely with the new Warren County Planning Commission to secure the best possible land use for the future.

Expert Finds Potential in County for Resort Industry

Warren County has a tremendous opportunity to develop a year around resort area industry according to a preliminary report made Saturday by Peter Stern of the Arthur D. Little Company of Boston to local development leaders.

Mr. Stern spoke to a luncheon gathering of 35 persons including directors of Warren County Development Association, members of the Chamber of Commerce and Warren County Planning Commission.

The Arthur D. Little company will submit a final report and recommendations in about six weeks as part of their assignment for the Development Association. It will deal with the potential use of our natural resources for developing a resort industry utilizing both public and private lands in the area.

The availability of both public and private land was listed by the consultant as one of our major assets. Other major advantages he listed were the Allegheny National Forest; the Kinzua Dam and lake it will create (this lake will be the prime factor in a summer recreation program); the Allegheny River which will be im-

proved after the Dam is completed; and our excellent geographic location in the mountains facing west and within short distance of Pittsburgh, Cleveland, and Buffalo.

The Boston expert prefaced his remarks with statistics about the national trend for more outdoor recreation due to the rapid growth of our population, the rising per capita income making more money for recreation, more leisure time due to shorter work weeks, and the great mobility of our people.

Lawrence Address Tuesday To Be Unprecedentedly Short

By LEONARD A. UNGER

HARRISBURG (AP)—Gov. elect David L. Lawrence's inaugural address Tuesday is expected to be conciliatory and almost unprecedentedly short.

Walter Giesey, the incoming governor's executive secretary, said today Lawrence would keep his speech under 15 minutes and would outline a program for the Commonwealth without attacking any person or party.

An inaugural address of only 15 minutes, compared to those for an hour or more at past inaugurations, would set a new record for brevity in recent years.

Lawrence becomes the 102nd governor of Pennsylvania at a noon ceremony that might attract as many as 40,000 spectators to the newly painted, white-columned inaugural stand at the foot of the steps to the state capitol.

It will be a joyous occasion for Democrats who for the first time in state history will see the inauguration of a Democrat succeeding another Democrat in the governor's chair.

A conciliatory speech from the former Pittsburgh mayor would be a sharp contrast to the light-

Production Of Missiles Comes High

By ELTON C. FAY

WASHINGTON (AP)—Missile weapons and space vehicles fly high in the budget proposed to Congress today for the year starting next July 1.

The Pentagon, in asking for a \$40,945,000,000 spending budget, said it would lay out 800 million dollars more for missile production and missile research than for the present year.

Missile costs were not itemized separately, but President Eisenhower has said missile programs are costing nearly seven billion dollars this year.

In addition to defense spending, the newly created National Aeronautics and Space Administration would be given a 280-million-dollar spending budget, compared with 153 millions for this year.

Expenditures by the Atomic Energy Commission, Eisenhower told Congress, are expected to hit a record \$2,700,000,000 in fiscal 1960.

The budget does reflect one trend toward easing of tension in atomic armaments. The President said that in view of the American offer to suspend weapons tests, the budget contained no money for such tests.

The military budget of \$40,945,000,000 is 145 million dollars higher than estimated spending for the current year.

Offsetting some of the higher missile costs will be abandonment of some older, outmoded weapons tests.

Also, Eisenhower said sufficient progress has been made on new weapons in development to permit elimination of some marginal weapons still being developed.

The manpower of the armed forces will be little changed at 2,520,000. It is the first year since the end of the Korean War that substantial cuts in military manpower have not been proposed.

Wife of Batista In New York To Assemble Family

NEW YORK (AP)—The wife of ousted Cuban dictator Fulgencio Batista is here on the first leg of a trip to gather four of their children in this country and take them to their father.

Mrs. Batista arrived by plane Sunday night from the Dominican Republic, where her husband took refuge.

Mrs. Batista was accompanied by Lawrence Berenson, Batista's attorney here. She went to the Waldorf Towers to meet two sons, Roberto, 11, and Carlos, 8, who have been staying there since Christmas—shortly before Batista fled Cuba.

Berenson said Mrs. Batista will leave soon with the boys for Daytona Beach, Fla., where two other children, Fulgencio, 4, and Marta Maria, 17 months, are staying with Mrs. Batista's mother.

The daughter is ill, Berenson said. When she is well, Mrs. Batista plans to take the four children to Ciudad Trujillo.

New Governor of Alabama Warns On Segregation

MONTGOMERY, Ala. (AP)—John Patterson, sworn in as governor today, warned Alabama Negroes that continued pressure for integration will mean the closing of their schools.

He promised to use every power to keep the schools segregated, and appealed to Negroes to turn against "the agitators of your own race whose aim is to destroy our school system."

Patterson took the oath of office in the climax of an inaugural pageant from which Negro high school and college bands were barred on Patterson's orders.

Patterson advocated passage of a law to close any school "where military or other forces are employed by the federal government to police their operations."

He also recommended legislation to cut off all public funds to any school where the segregation bars are lowered.

Patterson is the youngest governor in Alabama history. He is the son of the crusading crime fighter, Albert L. Patterson, whose murder 4½ years ago touched off a massive vice cleanup in Phenix City.

FACES MURDER CHARGE

RATON, N.M. (AP)—One of two men accused of beating to death Perry Peter DeSalle, 50, of Blairsville, Pa., was to go on trial today in Raton charged with murder.

Separate trials were ordered Saturday for David R. Peterson, 26, of Spokane, Wash., and Floyd W. Hines, 32, of Bowling Green, Ky. Hines requested a separate trial.

Woman Accused Of Beating Two Tots Imprisoned

PITTSBURGH (AP)—A woman accused of beating and burning her two stepdaughters has begun serving a two-year probationary period after being convicted of assault and battery.

Mrs. Betty Colhocker, 34, of Pittsburgh's Shadyside section, was convicted by an Allegheny County jury Saturday. The jurors cleared her of an aggravated assault and battery charge.

One of the stepdaughters, Theresa, 12, testified that Mrs. Colhocker broke her nose and deliberately burned her three times.

The other girl, Julia, 16, said she was abused by her stepmother nearly every day but was too frightened to tell anyone.

Automobile Crashes Texas Church Supper

DALLAS, Tex. (AP)—More than 100 youths attending a supper at Lakewood Methodist church were startled Sunday night when an automobile crashed into the church and buckled a brick wall.

Church members who watched police remove the slightly injured woman driver and a bottle of whiskey from the car, were flabbergasted when they recognized her as a woman who had applied for church membership six hours earlier.

Officers said drunk driving charges would be filed.

Wide Areas of East Plagued by Snow and Cold

By THE ASSOCIATED PRESS

More snow and cold plagued wide areas in the eastern half of the nation today.

The cold air extended across the Southland. It was freezing in northern Florida and temperatures were in the 40s in the extreme southern section.

Cold wave warnings were posted for wide areas in the mid-continent, hit by severe cold over the weekend. A fresh mass of arctic air from Canada spread southward across the Dakotas and Minnesota into northern parts of Iowa.

Temperatures were below zero again in Minnesota and the Dakotas.

The new onslaught of icy air was expected to cover most of the Midwest and Plains States by night.

It was clear and cold in the Atlantic Coast states. Below zero readings were reported in sections of the Northeast. Some warmer weather was indicated in the north and middle Atlantic states as well as in the Southeast.

The main area of wet weather covered by the storm extended from northern Missouri and eastern Iowa across northern Illinois and Indiana and northward into the upper Great Lakes.

Rain or a mixture of rain and snow fell near the southern borders of the wet belt. Blowing and drifting snow was reported to the north, with driving conditions reported hazardous in some areas. Falls ranged from one to two inches in a six-hour period during the night.

Situation in Buenos Aires Is At Critical Stage

BULETIN

BUENOS AIRES, Argentina (AP)—Argentine security forces today arrested more than 200 leaders of a crippling wave of strikes which the government calls a Communist-Peronist putsch.

The arrests were made in raids before dawn as President Arturo Frondizi was en route to the United States on a goodwill visit in which he is expected to bid for help to pull his country out of economic chaos. One target was the Communist party's headquarters.

The crackdown was launched in an effort to break the mass walk-out which has paralyzed most industry and commerce and vital sectors of transport, such as domestic airlines, shipping, buses, street cars and taxis. Soldiers stood guard to keep subways and trains running.

By SERGIO MACKAY

BUENOS AIRES, Argentina (AP)—A crippling wave of strikes swept Argentina today as President Arturo Frondizi flew to the United States for help to pull his country out of economic chaos.

With diehard followers of exiled dictator Juan D. Peron egging workers toward open revolt, government officials served notice they would call out troops if violence erupted.

The capital was in a virtual state of siege as orders went out to conscripts in the 24-26 age class to stand by for a call from the army "at any moment."

Frondizi was due in Charleston, S. C. today to start a two-week state visit. He arrives in Washington Tuesday to confer with President Eisenhower and other officials estimated the loss at \$2,200.

Los Angeles Seems Choice For Democratic Convention

By THE ASSOCIATED PRESS

Los Angeles is the choice of the Democrats' site committee as the location for the party's 1960 national convention. It's still a toss-up where the Republicans will hold theirs.

Los Angeles won the committee's recommendation Sunday after putting up a \$350,000 cash offer. Top offers also were made at the committee's New Orleans meeting by San Francisco, Miami Beach and Philadelphia. Chicago and New York also were in the running.

The recommendation by the site committee is subject to final action by the Democratic National Committee when it meets Feb. 27-28 in Washington. Approval usually is only a formality.

Los Angeles and the other five cities will compete today and Tuesday for the Republican convention. A GOP site committee started two days of meetings in Des Moines, Iowa, in advance of a session of the full GOP national committee there Friday.

Proposed site of the Democratic meeting is the huge Los Angeles Sports Arena scheduled for completion in May. The five-million-dollar structure will have a floor as long as the playing area of a football field and wider—300 feet long and 160 feet wide.

Los Angeles a city of 2,400,000, has never had a major national political meeting. Californians were prompt in expressing pleasure.

Gov. Edmund G. (Pat) Brown, the state's new Democratic head, said "It's great. It's wonderful. We'll give them a fine convention. The Los Angeles convention will be the start to the election of a Democratic president."

More than 30 factors were taken into consideration in recommending Los Angeles, Democratic officials said. One of the most important was the air conditioned arena which will accommodate 17,000 persons. Space will be available for caucus rooms and press, radio and television facilities.

High Court Rules Against Virginia Integration Laws

RICHMOND, Va. (AP)—Virginia's massive resistance to school integration laws apparently collapsed today in the Virginia Supreme Court of Appeals.

The court in a 5-2 decision ruled against the Almond administration in an action testing the validity of the payment of tuition grants for private schooling and related statutes.

It was not immediately clear how the court ruled on school closure and fund cut-off laws, but since they were directly involved apparently they toppled with the tuition payment statute.

The delay in the specific ruling on these other statutes was caused by a hold-up of the court's formal opinion as well as the dissenting opinion of Justices Harold F. Snead and Willis D. Miller.

Chief Justice John W. Eggleston announced the court's decision tersely to a crowded courtroom.

Erie County Schools Are Closed by Storm

ERIE, Pa. (AP)—Snow squalls and wind piled up snow drifts in this Western Pennsylvania area today, blocking one main highway, sealing a number of secondary roads and preventing some 5,000 pupils from attending school.

A 25 to 35 mile-an-hour wind blew the snow into drifts three and four feet deep on Route 5 about six miles west of Erie. Highway workers used snow plows to try to clear the artery.

School authorities in the Springfield, Albion, Edinboro and Union City, Pa., areas told approximately 5,000 pupils to stay away from classes because school buses were unable to travel on the rural roads.

Several airlines cancelled early morning flights in and out of Port Erie Airport because the runways were covered with drifts.

Executions Will Be Discussed at Rally in Havana

By LARRY ALLEN

HAVANA, Cuba (AP)—Fidel Castro said today he has invited 350 newsmen and commentators from the United States and Latin America to attend a giant rally called in Havana Wednesday to show support for his speedy trial and execution of Batista henchmen.

The revolutionary chief said he also had invited U. S. congressmen who "in recent days have severely criticized the executions of war criminals by the revolutionary army."

A statement from Castro's press headquarters said personal invitations had gone out to the foreign journalists. A spokesman said five planes would be sent to Miami to pick up those wishing to attend and another plane might go on to Washington.

Mrs. Marta Batista arrived by plane Sunday night from the Dominican Republic, where her husband took refuge.

Mrs. Batista was accompanied by Lawrence Berenson, Batista's attorney here. She went to the Waldorf Towers to meet two sons, Roberto, 11, and Carlos, 8, who have been staying there since Christmas—shortly before Batista fled Cuba.

Berenson said Mrs. Batista will leave soon with the boys for Daytona Beach, Fla., where two other children, Fulgencio, 4, and Marta Maria, 17 months, are staying with Mrs. Batista's mother.

The daughter is ill, Berenson said. When she is well, Mrs. Batista plans to take the four children to Ciudad Trujillo.

Woman Accused Of Beating Two Tots Imprisoned

PITTSBURGH (AP)—A woman accused of beating and burning her two step-daughters has begun serving a two-year probationary period after being convicted of assault and battery.

Mrs. Betty Colhocker, 34, of Pittsburgh's Shadyside section, was convicted by an Allegheny County jury Saturday. The jurors cleared her of an aggravated assault and battery charge.

One of the step-daughters, Theresa, 12 testified that Mrs. Colhocker broke her nose and deliberately burned her three times. The other girl, Julia, 16, said she was abused by her step-mother nearly every day but was too frightened to tell anyone.

GOLF CLUB FIRE ERIE, Pa. (AP)—An unidentified skier who broke into an equipment shed for warmth Sunday night was blamed by firemen for a blaze which burned the shed to the ground at the Erie Golf Club. Officials estimated the loss at \$2,200.

Automobile Crashes Texas Church Supper

DALLAS, Tex. (AP)—More than 100 youths attending a supper at Lakewood Methodist church were startled Sunday night when an automobile crashed into the church and buckled a brick wall.

Church members, who watched police remove the slightly injured woman driver and a bottle of whiskey from the car, were flabbergasted when they recognized her as a woman who had applied for church membership six hours earlier.

Officers said drunk driving charges would be filed.

Wide Areas of East Plagued by Snow and Cold

By THE ASSOCIATED PRESS

More snow and cold plagued wide areas in the eastern half of the nation today.

The cold air extended across the Southland. It was freezing in northern Florida and temperatures were in the 40s in the extreme southern section.

Cold wave warnings were posted for wide areas in the mid-continent, hit by severe cold over the weekend. A fresh mass of arctic air from Canada spread southward across the Dakotas and Minnesota into northern parts of Iowa. Temperatures were below zero again in Minnesota and the Dakotas.

The new onslaught of icy air was expected to cover most of the Midwest and Plains states by night.

It was clear and cold in the Atlantic Coast states. Below zero readings were reported in sections of the Northeast. Some warmer weather was indicated in the north and middle Atlantic states as well as in the Southeast.

The main area of wet weather covered by the storm extended from northern Missouri and eastern Iowa across northern Illinois and Indiana and northward into the upper Great Lakes.

Rain or a mixture of rain and snow fell near the southern borders of the wet belt. Blowing and drifting snow was reported to the north, with driving conditions reported hazardous in some areas. Falls ranged from one to two inches in a six-hour period during the night.

Situation in Buenos Aires Is At Critical Stage

BULLETIN

BUENOS AIRES, Argentina (AP)—Argentine security forces today arrested more than 200 leaders of a crippling wave of strikes which the government calls a Communist-Peronist putsch.

The arrests were made in raids before dawn as President Arturo Frondizi was en route to the United States on a goodwill visit in which he is expected to bid for help to pull his country out of economic chaos. One target was the Communist party's headquarters.

The crackdown was launched in an effort to break the mass walk-out which has paralyzed most industry and commerce and vital sectors of transport, such as domestic airlines, shipping, buses, street cars and taxis. Soldiers stood guard to keep subways and trains running.

BUENOS AIRES, Argentina (AP)—A crippling wave of strikes swept Argentina today as President Arturo Frondizi flew to the United States for help to pull his country out of economic chaos.

With diehard followers of exiled dictator Juan D. Peron egging workers toward open revolt, government officials served notice they would call out troops if violence erupted.

The capital was in a virtual state of siege as orders went out to conscripts in the 24-26 age class to stand by for a call from the army "at any moment."

Frondizi was due in Charleston, S. C., today to start a two-week state visit. He arrives in Washington Tuesday to confer with President Eisenhower and other officials.

FISCAL BLUEPRINT URGES INCREASES IN GASOLINE AND POSTAL RATE LEVIES

By FRANK CORMIER

WASHINGTON (AP)—President Eisenhower today sent Congress a 77-billion-dollar budget forecasting a spending cut of nearly four billion dollars and a precarious surplus of 70 millions. He called it "a confident budget" that assumes a surge of prosperity.

Eisenhower said the budget aims to restrain inflationary forces that "cheapen our money and erode our savings." He also said it paves the way for a tax cut "in the reasonably foreseeable future."

No tax cuts were proposed for the present. In fact, to help achieve the first balanced budget in three years, the President is asking Congress to boost postal rates and gasoline taxes. He also wants some tax loopholes plugged.

Any added postal revenues and proceeds from loophole plugging would increase budget receipts. Gas tax money would go into a separate trust fund which, Eisenhower said, would otherwise have to be replenished out of the budget.

Eisenhower said his fiscal blueprint, for all its emphasis on economy, promises to "increase our military effectiveness." The budget calls for hiking Defense Department military spending by 145 million dollars but projects a cut of 462 millions in arms aid to other nations.

Democrats in Congress generally were critical of the budget. Republicans welcomed the plans for a budget balance and said the alternative is more inflation.

Sen. John Sparkman (D-Ala.) called the figures unrealistic, saying he found it hard to believe that congress will increase gasoline taxes or postal rates.

House Speaker Sam Rayburn (D-Tex.) said he hopes for a balanced budget but added "I don't see much chance for it under the President's proposals."

For the Republicans, House GOP Leader Charles A. Halleck (R-Ind.) praised Eisenhower's budget, which he said "will provide for a strong defense, for progress in meeting human needs, and for a prosperous and expanding economy."

House Minority Leader Charles A. Halleck (R-Ind.) said the budget, as it stands, will provide for a strong defense, for progress in meeting human needs, and for a prosperous and expanding economy.

The Senate's assistant Republican leader, Sen. Thomas Kuchel of California, said the budget lays down a splendid formula for defense. But he said he does not agree with the President that there can be a breathing spell in asking new public works projects.

Rep. Clarence E. Cannon (D-Mo.), chairman of the House Appropriations committee, also said he thinks government agencies can get along on what Eisenhower (Turn to Page Seven)

Erie County Schools Are Closed by Storm

ERIE, Pa. (AP)—Snow squalls and wind piled up snow drifts in this Western Pennsylvania area today, blocking one main highway, sealing a number of secondary roads and preventing some 5,000 pupils from attending school.

A 25 to 35 mile-an-hour wind blew the snow into drifts three and four feet deep on Route 5 about six miles west of Erie. Highway workers used snow plows to try to clear the artery.

School authorities in the Springfield, Albion, Edinboro and Union City, Pa., areas told approximately 5,000 pupils to stay away from classes because school buses were unable to travel on the rural roads.

Several airlines cancelled early morning flights in and out of Port Erie Airport because the runways were covered with drifts.

Los Angeles Seems Choice For Democratic Convention

By THE ASSOCIATED PRESS

Los Angeles is the choice of the Democrats' site committee as the location for the party's 1960 national convention. It's still a toss-up where the Republicans will hold theirs.

Los Angeles won the committee's recommendation Sunday after putting up a \$350,000 cash offer. Top offers also were made at the committee's New Orleans meeting by San Francisco, Miami Beach and Philadelphia. Chicago and New York also were in the running.

The recommendation by the site committee is subject to final action by the Democratic National Committee when it meets Feb. 27-28 in Washington. Approval usually is only a formality.

Los Angeles and the other five cities will compete today and Tuesday for the Republican convention. A GOP site committee started two days of meetings in Des Moines, Iowa, in advance of a session of the full GOP national committee there Friday.

Proposed site of the Democratic meeting is the huge Los Angeles Sports Arena scheduled for completion in May. The five-million-dollar structure will have a floor as long as the playing area of a football field and wider—300 feet long and 160 feet wide.

Los Angeles, a city of 2,400,000, has never had a major national political meeting. Californians were prompt in expressing pleasure.

Gov. Edmund G. (Pat) Brown, the state's new Democratic head, said "It's great. It's wonderful. We'll give them a fine convention. The Los Angeles convention will be the start to the election of a Democratic president."

More than 30 factors were taken into consideration in recommending Los Angeles, Democratic officials said. One of the most important was the air conditioned arena which will accommodate 17,000 persons. Space will be available for caucus rooms and press, radio and television facilities.

Career Conferences Are In Preparation

Questionnaires are being distributed to Warren High School students today in preparation for the Career Conference Night program of Warren Junior Chamber of Commerce, which has fixed Monday, March 9th, as Career Conference Night.

A general assembly period will be held at that time when representatives of business, trade, professions, and industry

will discuss their fields. Each representative will be assigned to a room and will conduct two sessions of 45 minutes each. The students will go to the room of their primary field selection in the first session and will hear of their secondary choice in the second.

These forms should be returned by January 23rd when the committee will tabulate them and arrange a program to meet the career interests of the students. Cooperation of the students and the parents is asked.

The Career Conference Night is expected to be one of the major Jaycee projects, this spring and the cooperation of all concerned at this time will insure its success.

Riverside Lanes Opening Is Mobbed

hundreds of bowlers and others of the curious were drawn Saturday and Sunday to the splendid new Riverside Lanes bowling alleys on Struthers street at the west borough line near De-Luxe Metal. Manager Fred Baldersperger reported that automatic pinspotting equipment showed a total of 2,236 games was rolled during the weekend. The 16 alleys were packed with bowlers throughout both days and many who came simply could not be handled, is management's report. Joe Cedrone of 530 East Main street, Youngsville, and Sally Dangelo of 14 Cedar street, won the bowling balls given away as door prizes. League bowling is to begin there tonight. Any unused alleys will be available for free bowling, from about 1 p. m. on daily. Backer John Young and wife both bowled their first games during the open house.

Adopted Twin With Heart Ailment Dies After Surgery

PHILADELPHIA (AP)—Saundra Lou Keller was born with a diseased heart and the mark of early death upon her.

But she lived for 18 years and her short life was filled to overflowing with the love of foster-parents and her twin sister, who was blessed from birth with glowing health.

Saundra Lou, who came into the world unwanted by her natural parents, died in Hahnemann hospital Saturday.

She had been taken there by Mr. and Mrs. William Keller, of Franklin, Pa., who adopted her when all others despaired of her survival. It was hoped that an operation would remove the affliction and grant the girl longer, normal life. Despite all that science could do, however, she died.

Saundra Lou's adoption was a second inspiration.

The Kellers had lost their younger son when he was only 19 days old. Mrs. Keller could bear no more children. Yet neither she nor her husband wanted to rear their surviving son, then four years old,

as an only child.

So it came about that the sister, Susan Ann, was adopted.

The Kellers did not know at first that she was a twin. They learned that later and insisted upon taking Saundra Lou also, notwithstanding practically unanimous counsel to the contrary. The children's aid people, the charity doctors, the welfare consultants all said Saundra Lou did not have long to live.

The Kellers gave no ground, though, and finally won out largely because they met every objection with: "If what you say is true, doesn't this baby more than ever need the love and care of parents?"

At Children's Hospital in Chicago doctors said the same thing—a hopeless case. They advised the Kellers to return the child to the orphanage.

"They just didn't know how much I loved my new baby," Mrs. Keller said in reliving those days of anxiety and hope that was never for a moment abandoned.

Before the end came for Saundra Lou, nearly 200 persons, many

of them her father's fellow-workers back home, gave blood to her. The Kellers thanked them all the sorrowing mother adding: "If anyone ever tells you that you can't love adopted children like your own, don't believe them, I know that you do."

Saundra Lou's parents, William and Adelaide McChesney Keller, moved their residence from Warren to Franklin about 20 years ago.

Kathryn Kuhlman, nationally known woman evangelist, is to officiate at Saundra's funeral at Franklin where friends are received any time. The Rev. E. W. Morford, pastor of Nazarene Church of which Miss Keller was a member, will assist.

The young, pretty girl was given a chance for a longer, more useful life by the operation which closed up a hole in her heart and removed an obstruction from the pulmonary valve leading to the lungs. However, her blood did not contain platelets, elements which make blood clot.

A radio, TV citywide appeal proved Philadelphia the City of Brotherly Love. More than 150 persons, including doctors, nurses and interns showed up to donate blood from which the clotting elements were taken.

Her parents, older brother Douglas, and Joel Van Diepen, 21, of Woodbury, N. J. had kept a vigil at the hospital since Tuesday. Mr. Van Diepen met Sandy at the hospital during tests last August.

Other survivors in the Warren area are uncles Russell and Robert Keller, aunts, Dorothy Groves, Evelyn Keller and Marian Ristau.

Burial will be in Franklin.

ATTY. S. A. WILSON
PITTSBURGH (AP)—Samuel A. Wilson, 73, a practicing attorney in Clarion County for more than 50 years before he was convicted of embezzlement, died Sunday in Western State Penitentiary.

Wilson, who made his home in Harrisburg more recently, died less than 24 hours after he was committed to the prison to serve a 2-4 year sentence.

He was tried on a charge of embezzling money from a client.

Predictions for 1959

From the Office of Rep. L. H. Gavin,
23rd District, Pennsylvania

A continued steady improvement in the presently sound economic conditions appears most likely for the New Year of 1959.

In the opinion of both economists and businessmen most factors point toward a very good year ahead.

The basic soundness of the Nation has been proved by the quick recovery in most areas from the sharp recession of the early months of 1958.

The improvement in employ-

ment conditions in the past several months has been most gratifying to all of us. Since last February, employment has risen from 62 million to 64.7 million. At the same time, unemployment has dropped from 5.2 million to 3.8 million. Conditions are better in most of the areas where recovery has lagged behind the national average.

Good reasons for optimism are the facts of a rapidly increasing population and a constantly rising standard of living. As many as a million new households may be established this year, according to a recent Census Bureau projection.

More people are buying more of the things that they need and want. The luxuries of a few years ago are becoming almost the necessities of today. New products are constantly coming on the market.

A large percentage of the American public has the money or the credit to buy. The average earnings of factory production workers rose to a record

QUESTIONS AND ANSWERS

Q. I receive a pension from VA. In reporting income for the past year for VA pension purposes, I don't have to include my pension payments, do I?

A. No. Your VA pension payments are not considered income for purposes of your report on 1958 income.

Q. I have either lost or misplaced the discharge I received when I came out of service. Where do I get another and is there any charge for the replacement?

A. To replace a lost discharge, write the Personnel Records Center of the Armed Forces, 9700 Page Boulevard, St. Louis, Missouri. Give your service number and include your branch of service. There is no charge for replacement.

Q. I'll be entering school at the start of the Spring semester, under the Korean GI Bill. My present employer says he will keep me on part-time if I wish. Is there a limit on what I can earn in a part-time job and still keep my school allowance?

A. There are no restrictions on earnings in part-time employment for students attending college under the Korean GI Bill. Students taking on-the-job training, however, may have their allowance reduced when allowance and earnings combined exceed \$10-dollars a month.

Q. I have to move to another town because the plant where I work is relocating. What do I do to ensure there is no mix-up in receipt of my VA compensation check? Do I give my change of address to the Post Office, or the VA, or both?

A. Give your old and your new address to your local Post Office, using a change-of-address form. This will ensure forwarding of your check. But to keep VA's records straight, and eliminate the need of forwarding, notify the VA also when you move.

high of \$2.17 per hour during November. During the same month, two other all-time records were broken: for total personal income and for labor income from wage and salary disbursements.

Consumer spending which held up well right through the recession is now at a record rate of about \$292 billion per year. A rise of another \$12 or \$15 billion has been predicted for 1959.

Manufacturers' sales have been rising steadily since early spring and a recent upward trend in the flow of new orders points to a continuation of the sales advance in months ahead. This rise has been stimulated by a reversal in inventory policies. Many merchants are now increasing their inventories rather than reducing them.

Industry expects to increase its capital expenditures for plant and equipment during the first quarter of 1959.

Automobile sales were a weak spot in the business economy last year with only 4.6 million cars sold. This year, auto men are estimating their sales will be about 5.5 million. This would have a decided upward effect on the economy, benefiting a wide range of industries such as steel and glass.

Necessary defense spending will increase during the year.

Continued progress will be made on a large range of Federal, state and local programs for public works and public improvements, such as for highways, schools, hospitals.

Economists estimate that the total of goods and services which will be produced in these United States during 1959 may come to between \$465 and \$475 billion, compared to about \$436 billion during 1948.

All of these factors add up to the probability of a prosperous 1959.

Added to these tangible signs is a general feeling of moderate optimism on the part of people in government, finance and industry who make important decisions affecting the economy.

For instance, a survey of a large group of investment bankers shows that 93 per cent expect a recovery during 1959 and only 7 per cent expect a downturn.

This is an age of forward-looking accomplishment. The energy and inventive genius of the American people are pushing ahead in this age of electronics, atomic science and the conquest of outer space. The year 1959 may well be remembered in future history for great American landmarks in scientific progress.

Narcotics Traffic Target in War on Organized Crime

NEW YORK (AP)—The federal government is making the Mafia and its traffic in narcotics a primary target in a nationwide war on organized crime.

Income tax violations, gambling and vice also are among spheres of Mafia activity to be dealt with. Atty. Gen. William P. Rogers' special task force fighting crime is working out of offices in Washington, New York City, Chicago, Los Angeles and Miami.

A nine-month veil of secrecy over the work of the anticrime task force was lifted a little Thursday when contempt proceedings were started against an alleged leader of the Mafia.

The government complained that he refused to answer questions about the Mafia, the worldwide band of criminals and terrorists which had its roots in Sicily many years ago.

The questions, asked before a special U.S. grand jury, were about the secret underworld's links with the narcotics traffic. The balky witness is Giacomo Reina, now serving a five-year term for conspiracy and possession of narcotics.

Milton R. Wessel, supervisor of the attorney general's nationwide crackdown said "This is the first public indication of the work the task force has undertaken and is an indication of the intensive drive we are now conducting against organized crime."

THE MOST IMPORTANT \$200 IN THE AUTOMOBILE WORLD!

It buys a Buick LESABRE instead...

We hope you'll look into this personally, before you buy a new car. Because the simple fact is that for just about \$200 more than the price of the best models of the three leading low-priced cars... you can own a Buick LeSabre instead. You can check this any time by comparing the manufacturer's suggested retail prices posted right on the cars in the showrooms.

Not "stripped", but equipped as you want it. In the past, you may have run into price comparisons where the higher-priced car had no extra equipment, and the other had lots of it. This is not what we're talking about here. We mean only \$200 more for a car fitted out the way you want it.

You could pick the LeSabre 2-door hardtop pictured here... including Twin-Turbine automatic transmission, radio, heater, white sidewall tires, electric windshield wipers, direction signals, lighter and automatic dome and glove compartment lights. Even with all that our statement will still stand up.

Furthermore, you'll own a BUICK. You'll have a fine car, with a fine-car ride, a true fine-car feel. You get a quieter, more substantial car. Not only are this year's Buicks the finest Buicks ever built, but they have been judged the "outstanding" cars in their field in a recent poll of car owners.

Plus new economy, high trade-in value. In designing this year's Buicks, the engineers planned to build noticeably better gas mileage into the cars. Reports now in from owners, and careful competitive tests, too, prove they did a very successful job.

Alongside all this, put the good trade-in value which the Buick name and Buick's successful new styling assure... and you can see why we say this \$200 difference in price is the most important \$200 in the automobile world today.

Won't you see your Quality Buick Dealer soon and let him prove it in detail?

RESORT AREA INDUSTRY POTENTIAL

Representatives of the Warren County Development Association and the Area Chamber of Commerce at a luncheon held Saturday noon in the cedar room of the Blue & White Restaurant have reason to be much encouraged and optimistic over the report made by Peter Stern, of Arthur D. Little Company, Boston, who is conducting a study on the county's potential for recreational and vacation use.

The preliminary report to local business and civic leaders including the County Planning Commission, was made after Mr. Stern had spent two days in the section as part of his study to determine the potential for tourist attraction and recreation facilities as a future industry for the area. The first part of the week he was in Harrisburg and Pittsburgh in connection with the survey.

Mr. Stern, on the basis of preliminary study, says that the potential is tremendous for a year around resort area industry, although much of the information submitted appears to be contingent on whether or not the proposed Allegheny River Reservoir at Kinzua becomes a reality. He listed as main assets for the section:

The Allegheny National Forest: Kinzua Dam and the lake it will create; the Allegheny River, which will be improved in event the dam is constructed; the natural scenic beauty in a good geographic location, near Buffalo, Pittsburgh and Cleveland, and the fact that both public and private lands are available for development.

Mr. Stern points out that it will take considerable time, money and effort to organize and develop the potential in order that the quality of standards for resort facilities are maintained.

As a result of his report there is no doubt but that the County Development Association and the Planning Commission will concentrate their efforts in arriving at the best possible land use in the area for recreation.

Those in attendance, including directors of the C. of C., its Recreation and Tourist Attraction Committee and a number of civic-minded residents interested in the development of the area were advised that the final report and commendations will be ready in about six weeks.

Big center of attraction for hundreds of area residents over the weekend was the new Riverside Lanes in Struthers street, which opened Saturday afternoon to a capacity house, which continued until closing time early this morning. Our congratulations to Messrs. Baldensperger and Young for the enterprise in making such a marvelous bowling palace available to lovers of the sport in this section.

It will be good news to many art lovers who were unable to attend the Black and White exhibition at the Warren Public Library Friday and Saturday to learn that it is being continued this week beginning today through Wednesday. Inclement weather and conflicting activities prevented many who are interested from inspecting the show which is described as a fascinating one.

WASHINGTON (AP)—President Eisenhower — a little over 68 and beginning his seventh year in office Tuesday — is still a couple of years shy — of being the oldest man who ever occupied the White House.

Andrew Jackson still has the distinction of being the oldest president in American history. But Eisenhower will have been the oldest when he enters the White House.

Jackson was almost 62 when he took office. He was just a few days short of 70 when his second term was up. Eisenhower was a little over 62 when he went into the presidency in 1953.

On the day he steps out — Jan. 20, 1961 — he will be 70 years, 3 months and 6 days old, or about 3½ months older than Jackson.

Today Eisenhower is 68 years, 3 months, and 5 days old. Two other presidents—James Buchanan and Harry S. Truman—were still in office at an older age than that. Buchanan was just a month younger than Jackson when he finished: 69 years, 10 months, and 11 days old.

Jackson was 69 years, 11 months

Here and There

The Allegheny National Forest now has a heavy blanket of snow, John E. Franson, Forest Supervisor, reports. Ten snow courses on the Forest were measured on January 13. The average depth of the snow was 11.5 inches and contained 2.5 in. of water. A granular crust of about one-half inch is present at an average depth of six inches. This formed during the mild spell in the latter part of December. Fortunately, the ground in forest land is not frozen. Leaves and litter in our hardwood forests plus snow provide good insulation to freezing temperatures. The unfrozen ground allows percolation of water to the soil reservoir for gradual release instead of immediate runoff during thaws. The deepest snow was found at Evano on U. S. 219, two miles north of Lantz Corners in McKean County. Three inches of water was found at this course. The least snow was found near the Allegheny River, six miles east of Warren where the snow was 9.6 inches and water content 2.2 inches. The Forest Service measures snow conditions at ten courses established at different elevations from the upper part of Willow Creek in McKean County to Whig Hill in Forest County. Twenty samples are made at each course for depth and water content. The courses are measured on National Forest work programs. Results of measurements from time to time signify the flood potential for the immediate future.

In observance of Benjamin Franklin's birthday—which was also the fourth annual Postmaster's Day—Postmaster General Arthur E. Summerfield laid a wreath at the Post Office Department's Franklin Statue last Saturday. The ceremony was held in the Benjamin Franklin Post Station, located in the Main Post Office Department Building in Washington, D. C., at eleven o'clock in the morning. That reminds us the founding genius of the American Post Office was born in Boston, January 17, 1706. Franklin served in the American colonial postal service between 1737 and 1774. He was appointed first Continental Postmaster General July 26, 1775, serving in that post until the following year, when he left to become American Ambassador to France. Franklin made many improvements in the nation's early Postal Service. He visited every American post office of his day, making improvements and changes. He set up post routes on a more regular basis so that service was provided more frequently and delivery service was stated in some of the bigger cities. Newspapers, without regard to their policies, were allowed to go freely through the mails for the first time, and at fair rates. International mail services were speeded, and the postal service of the time was rescued from a demoralizing deficit operation into one that was financially sound and efficient. One incident surrounding Franklin's "franking" or free mailing right is often recalled. Mr. Summerfield noted. In 1774, Franklin—who was "too much of an American" for the British Crown—was fired from his postal duties. Franklin's "frank" (the official signature on mail denoting that it is free), read as follows under the British: "Free B. Franklin." After his summary dismissal from the British system, Franklin wrote on his letters: "B. Free Franklin." "Although his accomplishments in other fields may be better known to some than his achievements in the Postal Service, we realize more and more his great foresight in helping to establish for the nation the firm foundation for what has become the greatest Service in world history."

That Tide of Liberalism Didn't Amount to a Ripple

BY PETER EDSON
NEA Washington Correspondent

WASHINGTON — (NEA) — President Eisenhower's modern Republicanism of a couple years ago now appears to be a dead duck. Conservatives of both parties are still safely in control of both the Senate and House.

Congressional liberals have taken a beating on changing the Senate rules and reorganizing the House Rules Committee. Democratic conservatives control both Senate and House majorities, and the principal committees.

Republicans have turned to conservatives for their new leadership.

Right after the election there was a good bit of prophesying that the sweeping Democratic victory meant the birth of another New Deal and an era of more liberalism.

Election results were even interpreted as signs that the Republican party was dead. There was only a possibility it could be brought to life by a big transfusion of new blood on the left side.

IF THIS INDEED WAS THE LESSON learned by the losers last November 4, it has made little impression on the winning Republican congressmen now in Washington.

In the Senate, liberal Democrats and Republicans could muster only 36 votes in the first test vote on changing Senate rules. On the second test, the vote was 67 conservative to 28 liberal. And on the final vote it was 72 conservative to 22 liberal.

Even the Republicans counted only 14 progressive votes to 20 conservatives in their leadership balloting.

The 153 Republicans elected to the House for this new 86th Congress consider themselves 80 to 85 per cent conservatives. They say there are fewer than 20 GOP congressmen who can be considered consistently liberal.

IF ANYTHING, the GOP majority is more conservative than ever. It even wants to reform President Eisenhower and make him forget all this stuff about being more progressive.

President Eisenhower got a short ovation when he entered the House of Representatives to deliver his State of the Union message. But one observer commented wryly, "This is the next to the last hurrah." It was sadly prophetic.

The applause showed the temper of this Congress. It is for the conservative things—not the bold new experiments like creating another committee to peer into the future and plan for it.

It is the whopping big Democratic majorities in the new Congress which will control things when it really gets rolling.

But in the first week of the session, there was no great tidal wave of liberal action such as was predicted.

THIS SITUATION COULD of course change before the end of the session.

In the 1958 Congress, the Democratic majority chalked up few accomplishments during the first four months. Then it began to grind out antirecession spending bills that kept the President's veto pen busy.

The urge to spend a lot more money on defense and social reform programs is here. It was noteworthy that Democrats sat on their hands when the President spelled out his economy and budget-balancing program.

President Eisenhower wants some further aid to education. But if bills like these are passed, his balanced budget will go into the ash can.

Will the conservative elements prevail?

Radio and TV

By CHARLES MERCER
NEW YORK (AP) — ABC News presents Monday night a superb documentary of juvenile delinquency that you shouldn't miss.

"Youth Anonymous" (7:30 p.m. EST) is, specifically, an examination of why Detroit has a declining rate of juvenile delinquency when it is rising nearly everywhere else. Among the factors appears to be a unique organization called Youth Anonymous that uses the general methods of Alcoholics Anonymous and is headed by an inspired ex-convict named Ernest "Tip" Runsky.

After viewing this filmed program in advance I believe that as the result of some extraordinary work by producer Robert Northshield and an ABC crew, "Youth Anonymous" succeeds in being more than a good factual report of a situation in a specific city.

Northshield's cameras roam, linger, probe and bare dramatically basic problems that beset many American youths everywhere: lack of purpose, lack of emotional security, the dull drabness of poverty. Watch the faces of these youths, the ways they express themselves.

There is excellent, unobtrusive commentary by ABC News chief John Daly and reporters Edward P. Morgan, Don Goddard and Robert Fleming.

"Youth Anonymous" is a leading candidate for prizes when awards are given for television documentaries.

"MY FEET HURT"
Painful feet may result in a disabling handicap. The victim hobbles at a snail's pace, winces with each step, and has a temper fit for neither man nor beast.

Flatfoot from a weakened or broken down metatarsal or longitudinal arch is the most common origin of foot pain. Immediate relief is obtained when the condition is recognized and proper supports are applied to hold up the sagging arches.

Prevention is more rewarding. Keep the arches strong through exercise, learn to walk properly, maintain good posture, and wear shoes that support the feet, especially when walking on hard surfaces. These rules hold for many foot conditions.

Other causes of painful feet are bunions, corns, bony growths (exostoses) on top of the foot, gout, sprain of the ligaments of ankle and foot, fractures, ingrown toe nails, ringworm, and circulatory disturbances.

Corns and calluses present a special problem. They indicate that the weight of the body is not being distributed evenly on the bottom of the foot. The individual is not walking properly, is overweight, has poor posture, or wears shoes that do not fit. In some instances, the foot has been injured or subjected to strain for a long time.

Most of us have developed a painful heel at one time or another. It usually stems from foot strain and relief is obtained by holding the heel in place with adhesive strapping. Bed rest may be needed when discomfort is severe. Now and then procaine or hydrocortisone is injected into the inflamed area to ease distress and promote healing. In some instances, inflammation is caused by a bony spur or by arthritis.

What should be done with thick calluses? Some authorities recommend paring or trimming. Others suggest a hands-off policy on the theory that these lesions develop over an

area in which pressure is being exerted. In this respect, callus is protecting the area and trimming defeats nature's purpose.

NEEDS TRANSFUSIONS
B. S. W. writes: I have been taking liver shots and pills but am still weak and tired. Now the doctor wants to give me transfusions. Do you know what's wrong with me?

REPLY
You must have a form of anemia that is not responding to iron and liver. This would eliminate iron deficiency and pernicious anemia. If transfusions are needed, you must be bleeding or your blood cells are being destroyed faster than the bone marrow can manufacture them. Ask your physician to explain what is wrong and suggest a consultation if you are not satisfied with the answer.

GIRL HAIR PULLER
Mrs. J. R. writes: Is there any way to cure a 4 year old girl from pulling out her hair when she is tired? She has several bald spots on her head but nothing we have tried has proved successful.

REPLY
Habits of this nature often stem from some inner need that is not being satisfied. There may be an ungratifying relationship with parents or jealousy at the attention paid a new brother or sister. The little girl you write about should be cuddled when she begins pulling out her hair. You know the old saying about catching more flies with sugar than with vinegar. I assume the girl does not have any irritation of the scalp.

BACKACHE
R. F. writes: Is muscle spasm in the lower spine the same as lumbago?

REPLY
Muscle spasm occurs in lumbago as a reaction to inflammation, injury, exposure, fatigue.

Business Mirror

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP)—January is running true to form — and that is a comfort in itself. Last year January wasn't as good as usual and tipped businessmen off that the steep slide into the recession trough was just ahead. A couple of years back January was better than usual, riding the boom that took its toll in a rising cost of living.

This year January is behaving in its normal, healthy way: More persons out of work than last fall although industrial output is up. Many wage scales higher but take home pay for most workers down because of the increased withholding for higher social security taxes. Debt conscious Americans trying to clear up their Christmas bills and still take advantage of the clearance sales.

The rise in unemployment in December and January is unpleasant but expected — and largely seasonal. It comes from the normal drop in outdoor work — aggravated this time by bad weather in many sections. Factory employment, particularly in nondurables, is holding up well, and foretelling better days ahead when outdoor jobs open up again.

After their biggest Christmas ever, retailers are predicting even higher volume this year. Some may be hurt by the unusually early Easter but expect to make that up later on.

The auto industry is building up stocks, as it does in a normal January. It still has to prove the sales appeal of the new models.

Construction, in spite of the weather, continues to be a shining star in the economy. Housing starts to continue to increase, in contrast to a year ago when the home building industry was groggy. Construction contract awards foreshadow greater activity in the spring.

Mostly, though, January is shaping up as being neither very good or very bad for business.

February and March could be more decisive months for business, but having January back to being its normal self again augurs well.

Annual Business Meeting of Sugar Grove Fire Dep't

SUGAR GROVE—Floyd West presided at the annual business meeting of Sugar Grove Volunteer Fire Department, with 25 members present.

Chef Scott Stuart, Jr., reported 40 alarms answered during the year, including 5 resuscitator calls, 6 mutual aid runs, 12 grass fires, 16 calls involving buildings, of which two were barns, two in mercantile establishments, and 11 in houses; 4 chimney fires; one false alarm.

A total of 446 men responded to these calls, averaging 11 per call. Hose laid included 652 feet of 2½-inch, 2,300 feet of 1½-inch, and 1,950 feet of booster line. There was no recorded fire loss in the borough, \$9,550 in Sugar Grove township.

Members voted to send a bowling team to the firemen's Handicap Tournament in Jamestown; discussed remodeling of the tank truck and installation of a booster reel, the work to be done by members. Plans were also made for the annual banquet in February.

It was announced anyone interested in a radiological course, the study of metering and controlling radioactive rays, should contact Clifford Storms, local Civil Defense director. This is a seven-week course of 2½ hours each night, with five meetings in Sugar Grove and two in Warren.

At the close of the business session, Roy Christenson served lunch.

Letter to the Editor
Warren Times-Mirror
Warren, Pennsylvania
Dear Editor:

I was very pleased to read the letter submitted by Mrs. R. G. Smith in Friday's Times-Mirror.

I, too, would like to comment in reference to Fred Bauer's letter.

Mr. Bauer's opinion that a prominent pediatrician is "too big" for our town, is not degrading the physician, but, is degrading the town of Warren! I would like to think that Warren and its citizens are more worthy of a professional man's sincere interest in the progress of their community and, therefore would commend him for his efforts!

PAROLE VIOLATOR
Raymond Edward Reese, 34, formerly of Warren, was picked up in Bradford over the weekend for parole violation. Parole Officer Bob Jury will take him to Crawford County for commitment. He spent the night in Warren County jail.

TARDY FIRE CALL
Fire department emergency truck was called to the Bert Hammerbeck residence at 31 Glade avenue shortly after noon Sunday to check on the aftermath of a blaze which burned up from the cellar during the night. Firemen said shorted wires burned a hole in the living room floor and ignited a chair covered with clothing, while discoloring a door near the flames. The owner put out the blaze with a garden hose. Firemen have suggested that it might be advisable not to wait about nine hours for an investigation in the future.

ACCOUNTANTS TO MEET
Penn-York Chapter of National Machine Accountants Association will hold their January business meeting on Thursday, at Emery Hotel in Bradford. Guest speaker for the evening will be Roland Doles, Cleveland district manager for Standard Register Co. Mr. Doles has specialized in systems and procedures work for over ten years and is constantly in demand for speaking appearances on this subject. His presentation should be of interest to all members, and a fine turnout is expected. Local members of the organization include Quentin Holt, John W. Lutz and LeRoy Weaver, Sylvania Electric Products, Inc.; W. Harold Smith, Deluxe Metal Furniture Co., and W. H. Muir, Caughey & Muir.

PETROLEUM EXHIBIT
Warren area residents interested in the early days of the oil fields are invited to attend a showing of major items of the Ethyl Corporation's collection of Petroleum Americana in Quigley Hall at Allegheny College next Friday, Saturday, and Sunday. James E. Boudreau, public relations director for the Ethyl Corporation, will open the exhibit with an illustrated lecture in Quigley's Henderson auditorium at 8:15 Friday evening. He will be accompanied by Thom Yates and Gelston Howel, of Ethyl's public relations department in New York, and H. C. Moseley, of Oil City, the corporation's regional representative. The exhibit consists of some 250 items, and includes stock certificates, posters, prospectuses, booklets, pictures, and advertising materials used in Northwestern Pennsylvania.

World War One Veterans Install

Holding their January meeting in Stoneham Community House, with a delicious thirteen dinner served by the Ladies' Auxiliary, members of Barracks 1020, Veterans of World War I, had installation of officers recently elected to serve in 1959.

The national department deputy chief of staff, Floyd Potter of Bradford, installed the following slate:

Commander, Karl E. Peterson, Sr.; senior vice commander, Harry Johnson; junior vice commander, Otto Gnage; quartermaster, Ernest Huber; judge advocate, Wellington Nelson; chaplain, Alfred Knapp; trustee, James Manning for three years, Fred Blair for two years, and Pierce Olney for one year.

Following the induction, members joined in a vote of thanks to Past Commander Lloyd Knight for the splendid work he has done in building up a fine barracks from its small beginning in 1957.

A large delegation from Jamestown Barracks 1036 attended the dinner and meeting, contributing many fine ideas to the discussion. Included in this group were the national department deputy chief of staff, D. W. Peterson, Commander G. H. Armstrong, Adjutant Glen R. King, Chaplain John A. Johnson, Frank W. Emo, H. H. Haag, Harry Engberg, W. W. Clark, Carl T. Fox, Ralph G. Newell, also the Ladies' Auxiliary president, Mrs. Mae Emo, and Mrs. Inga Engberg.

Installation for the local Auxiliary was not held at this time, because of what was described as negligence on the part of State Department of Pennsylvania officials.

Bargaining Continues In Plate Glass Strike

PHILADELPHIA (AP)—A week-end of bargaining failed to break the deadlock in the 106-day Pittsburgh Plate Glass Co. strike.

Another session was scheduled today with federal mediators.

Meanwhile, thousands of Chrysler Corp. employees have been laid off. Pittsburgh Plates supplies 90 per cent of the glass used in Chrysler cars.

Some 13,000 members of the United Glass & Ceramic Workers Union have been idled by the strike. Incentive pay and seniority rights reportedly are the main issues. Wages are not an issue.

The Teton Mountains in Wyoming cover 94,853 acres.

Longitude, or east-west distance, could not be measured exactly until 1740, when the chronometer was invented.

SAFETY CRACKDOWN

AVOIDS THE COUNTY

Several ancient Warren County school buildings named as focal points in a stepped up program to insure public safety were overlooked during the weekend when a ukase from Harrisburg demanded that 55 buildings in the Commonwealth be closed within ten days unless they can comply with fire regulations. Closings may be appealed Jan. 22. Eleven others were ordered shut down last Thursday. Close scrutiny has been given all county schools for hazards in the past few weeks and recommendations, if any, will come forth shortly. There are approximately 7,000 public, private and parochial school buildings in the state.

Weekend Wrecks Hurt Six Persons

Slippery highway conditions Friday afternoon and evening caused three traffic mishaps two of which sent persons to Warren General Hospital with serious injuries.

At 4:15 p.m. Friday on Route 62 about ten miles south of Warren toward Tidioute, Pauline Salava, 45, of Pittsburgh, stopped to check her tires.

Peter A. Reynolds, 22, of Pittsburgh, was stopping behind her when an empty log truck came up behind them and skidded sideways across the road as the operator, Frank D. Suppa, 18, of Star Route, Irvine, applied the brakes.

Rear dual wheels of the truck struck the rear of Reynolds' Plymouth, pushing it into the lead DeSoto. Helen Malo, 43, of Pittsburgh, a passenger in Reynolds' car, sustained a possible fractured vertebrae and was taken to Warren General Hospital where she is reported in "satisfactory" condition.

Another passenger in Reynolds' car, Patricia Ann Reynolds, 21, of Pittsburgh, complained of an injured back.

Damages were estimated at \$150 to Salava's car, \$125 to Reynolds, none to the log truck.

Another truck was involved in a mishap at approximately 7:20 p.m. Friday on Route 6 two miles east of Clarendon.

Troopers said Farrell's tow truck was pulling from a driveway a car owned by Kenneth Groesch of RD 1, Clarendon. As the tow truck gained the highway its headlights were facing east as Lawrence Champion, 49, of Tiona, approached in a west-bound direction.

Officers said Champion tried to go to the right of the lights and hit the car being towed. Damages were estimated in the neighborhood of \$400.

Recipient of a possible concussion was George Loomis, 16, of Pittsburgh. He was admitted to Warren General Hospital early Saturday morning after the car in which he was driving west on Route 6 about two miles west of Youngsville skidded head-on into a tree.

A passenger, Patricia Hendrickson, also 16 and of Pittsburgh, suffered facial lacerations. Both are reported in "fair" condition at the hospital.

The 1957 Chevrolet sedan he was driving is a total loss. Mishap occurred sometime between 11 and 12:30 Friday night but was not reported to troopers until Saturday morning.

Two other injuries were sustained by drivers in a two-vehicle collision on Mohawk avenue in Pleasant Township at 5:20 p.m. Saturday.

Troopers said Corrine C. Ryan, 27, of Mohawk avenue, was pulling from a driveway in a car owned by Lamont C. Culbertson when a car going up the hill and driven by Malcolm Dailey, 66, of Mohawk avenue extension, plowed into the side.

Dailey complained of "whiplash of neck" and Mrs. Ryan sustained a bruised left hip, shoulder and arm.

Damages were estimated at \$80 to the Dailey car, \$150 to Culbertson's.

Cold Will Prevail Throughout Week

(By Associated Press)
Extended weather forecast for Tuesday, Jan. 20, through Saturday, Jan. 24. Western Pennsylvania, western New York and West Virginia:

Temperature will average 3 to 6 degrees below normal. Cold weather throughout the period with coldest Friday and Saturday. Precipitation will total 1/2 to 3/4 inch occurring mostly as snow Tuesday and again Thursday and Friday.

12 FATALITIES

By The Associated Press
At least 12 people died accidentally in Pennsylvania over the weekend, eight of them on the highways. The other four were victims of on-the-job accidents. Three men at the Duquesne Works of U. S. Steel Corp., near Pittsburgh, were killed Saturday when a ladle of molten iron overturned. Another man perished in a coal mine accident Friday night.

Kid Travels 200 Miles in Solo Drive

SAN ANTONIO, Tex. (AP) — A 13-year-old boy, with no previous solo driving experience, drove his grandfather's automobile 200 miles Sunday without mishap until he arrived in San Antonio.
Then Randy Stanley, Houston, smashed into another vehicle, but "the driver took a dollar from me for damages and drove off," the boy explained.
Randy, released by police to an uncle, said he drove as fast as 90 miles per hour. He said he saw three highway patrolmen but was not stopped.

Fiscal

(From Page One)

proposed, but Chairman Clarence Cannon (D-Mo) of the Appropriations group called the budget impractical.

Secretary of the Treasury Robert B. Anderson indicated that if Congress boosts spending in the new budget, a tax increase — rather than a cut — would become a real possibility.

Anderson said revenue estimates for fiscal 1960 assume personal income in calendar 1959 will rise more than 20 billion dollars to 374 billions. He said the Treasury believes corporate profits will increase 10 1/2 billions to 47 billions and that the gross national product will advance nearly 20 billions to 470 billions.

The President disclosed that in the current fiscal year, which ends June 30, the government's finances will be even deeper in the red than had been predicted. He said recession-hit revenues will fall \$12,871,000 short of matching indicated spending of \$80,871,000,000.

He said this whopping deficit — the biggest ever in peacetime — will make necessary another request to Congress for an increase in the legal ceiling on the national debt.

For fiscal 1960, Eisenhower forecast revenues of \$77,100,000,000 — a rise of nearly nine billion dollars. He said tax receipts will be swelled to near-record levels by "a rapidly advancing economy."

By the President's calculations, present revenue laws alone wouldn't produce a balanced budget. He is asking Congress to pass legislation that would increase budget receipts by 600 million dollars in fiscal 1960.

Eisenhower proposed raising 350 millions by again boosting postal rates, which went up only last August. He will submit details on this and other revenue proposals later.

The federal gasoline tax would be hiked to 4 1/2 cents a gallon, from the present 3 cents. The added revenue — more than 600 million dollars the first year — would go into a special trust fund to finance roadbuilding. Eisenhower said the increase, designed to keep the trust fund in the black, should go into effect July 1 and expire on June 30, 1964.

Anticipating Democratic claims that he is being too thrifty, Eisenhower said his budget "responds to national needs, with due regard to urgencies and priorities, without being either extravagant or unduly limiting."

"We cannot, of course, undertake to satisfy all proposals for government spending," he declared.

The President said his proposals "are realistic and can be achieved with the cooperation of the Congress." He conceded a lot also depends on "popular support and developments in our economy and in the world."

The ease with which the budget could slip into the red was pointed up by, among other things:

1. The distinct possibility that Congress may not go along with all recommendations for increasing revenue.

2. The obvious guesswork involved in estimating outlays for farm price supports. The subsidies this year are running more than two billion dollars above the total estimated a year ago.

WASHINGTON (AP) — A foreign aid program emphasizing more economic and less military assistance was offered to Congress today.

Trucks Must Have Double Turn Signals

New requirements for truck turn signals go into effect at the start of the next inspection Feb. 1, Revenue Secretary Sulowice has announced.

Under the new regulations commercial vehicles 80 inches or more in width registered after that date must carry two double face turn signals showing amber on the front end and red to the rear and two signals on the rear showing red.

Commercial vehicles less than 80 inches in width must be equipped with two double-face turn signals on the front, and two signals on the rear.

All commercial vehicles registered prior to Feb. 1, and not required to be so equipped under the prior regulations until Aug. 1, start of the following inspection campaign.

Lawrence

(From Page One)

ing talk made by Gov. George M. Leader four years ago. Leader, then 37, lashed out at Republicans in terms like "bankruptcy" and "recklessness."

But just like Leader, Lawrence also faces a politically divided Legislature, with the biggest task ahead the problem of raising up to a half billion dollars in new taxes.

The Democratic-dominated House scheduled a session for late today but it is expected to be routine, except possibly for action on deficiency appropriations.

The Senate, dominated by Republicans, doesn't meet until Tuesday. And then it will be principally to provide a built-in audience for the inauguration in the Senate chamber of Lt.-Gov.-elect John Morgan Davis, former Philadelphia Democratic judge.

Lawrence, at 69, will be one of the oldest persons to take the gubernatorial oath. He and Mrs. Lawrence already have taken quarters in a downtown hotel preparatory to moving into the executive mansion Tuesday.

The big question in advance arrangements has been the weather.

ropriations Committee, said "this is a political budget based on contingencies which no one expects to materialize."

Rep. John Taber (R-NY), ranking Republican on the Appropriations Committee, said he would try to keep the appropriations within the budget.

County Gets Funds For Industry Development

Warren County has received \$2,102.25 in state reimbursement to date for activities carried out during 1954 by Warren County Development Corporation.

The county was granted \$4,269 on Jan. 1, 1954 to assist its non-profit industrial development agency to assist in defraying expenses for promotion, research, surveys etc., devoted to industrial development.

Pennsylvania Department of Commerce is authorized under the Industrial Development Assistance Act, to make cash, matching-fund grants to county or inter-county agencies engaged in such endeavors.

To date, WCDC has conducted industrial and economic base surveys of the county and prepared promotional material.

There are 30 counties in the state which received grants during 1954, including Venango, \$6,532 for advertising in national industrial magazines, maps and aerial views of Industrial Park (217 acres), and Erie County, \$43,876 for advertising, brochures, community surveys, engineering surveys, publicity, prospect solicitation and travel.

The grants may be for sums up to ten cents per capita of the 1950 county population and are made on an annual basis.

Situation

(From Page One)

Left at home to direct action against the strikers were Senate Chairman Jose Maria Guido, acting president, and Alfredo Vitolo, acting minister of national defense and interior minister.

Scattered violence Sunday pointed up the gravity of the situation.

One bomb went off in La Plata, 35 miles southeast of the capital, doing about \$1,000 in damage to the building housing the U. S. Information Service. Another exploded in the capital, damaging the home of Rogelio Frigerio, economic adviser to the president.

First U. S. patent for chewing gum was issued in 1869 to W. F. Semple, of Mount Vernon, Ohio.

Fairchild Hotly Denies Two Visits To Warren

Richard Fairchild, 22, of Corry, has taken rather heated exception to a story published last week that when he returned to Warren YWCA shot and bleeding it was his second visit of the day.

Law officials agree and do not know how the story started that Fairchild and girlfriend Eunice Hoffman, 18, who lives at the YWCA residence, quarreled before the blast.

Fairchild sticks to his story that a woman plucked him in the left shoulder with a rifle last Tuesday evening after he helped her and a friend change a tire near Shady Lawn in Starbrick.

Police, openly skeptical of the story, have been unable to question Fairchild fully because of his condition, which, while improving steadily, is not yet satisfactory for lengthy interrogation.

Miss Hoffman, who works at New Process Company, also denies that Fairchild was in Warren earlier the day he was shot. Both were apparently irked at coverage given the strange shooting in the Warren Times-Mirror.

Barking Dog Saves Blind Man in Fire

GOSHEN, N. Y. (AP) — Victor Kowalski was sleeping in a downstairs bedroom while his wife and four children were away.

The barking of the family's pet dog awakened him. The second floor of his house was on fire.

Kowalski and the dog escaped to the street. Firemen extinguished the blaze. Kowalski is blind.

Legality of County Detectives Questioned

A County Commissioner creation has been called possibly "contrary" to law.

Attorney Myer Kornreich, representing the three county auditors, has filed a petition requesting Judge Alexander C. Flick, Jr. to make a declaratory judgment on whether the same man can be both sheriff and county detectives.

Auditors C. H. Briggs, M. L. Jordan and R. N. Summerton, in their petition, point out that on January 6, 1954, the Salary Board created the post of Chief County Detective for Sheriff Larry Linder. For Linder's Chief Deputy, Don Allen, Jr., the post of County Detective was created. Both receive \$1,500 annually.

The auditors contend that both are county jobs and that under existing state law they believe the same two men may not be allowed to be paid out of county funds for each job. They have asked Judge Flick if such is legal.

A decision will be necessary before the 1958 county expenditures can be fully audited. The detective posts were created when Commissioners Blain Mead and L. L. Crippen said the District Attorney could no longer have money to pay the Sheriff for his investigative work for the DA's office, an arrangement which had been in effect in the county for years.

Get Superior Marks As Future Farmers

Several area school pupils studying agriculture under Future Farmers of America program in various schools have received project recognition for their work during the past year, according to vocational advisor T. R. Sponsler.

Of 85 boys conducting 144 projects in 1954, these received superior ratings for general excellence:

Northern Area Joint School: Beef Heifer, Hugh Porter; Corn, Paul Carlstrom; Dairy Heifers, Milton Johnson; James Costlow; Swine, James Chase; Farming Program, six enterprises, Dale Penley and Rodney Gourley; five enterprises, Calvin Eckert.

West Forest Joint School: Farming program, four enterprises, Dewey Wagner and five enterprises, John Wagner.

Brokenstraw Valley Joint School: Dairy Heifer, Alan Wittig; Dairy Cows, Ronald Williams; Farm Mechanics, David Anthony; Home Improvement, Kenneth Mathews; Laying Hens, Paul Johnson and William Stover; Oats, Larry Stufflebeam; Sweet Corn, James Brown.

WALLINGFORD, Conn. (AP) — Averell Harriman, recently defeated in his try for re-election as governor of New York, says he's never again going to run for office.

In an interview Sunday with the Meriden (Conn.) Record, Harriman, a Democrat, said he's ready to take a quieter role in politics from now on.

"I've had enough," he said. "I am 67 years old. I'll remain active in politics as a private citizen, but I will not seek elective office again."

Eagles, Knights Step Into UAV Third Berth; Victorious Friday

Youngsville and Northern Area rallied for their first Upper Allegheny Valley league victories Friday night to go into third place berth with East Forest. All three squads have 1-1 stales.

Two big quarters scored a 33-48 Youngsville victory over Tidoute on the Eagle hardwood Friday evening while the NA Knights used a fourth quarter raid to put away West Forest 33-28 on the home court.

West Forest	0	3	.000

Jan Agnew and Jim Fehman combined forces to register 27 points between them as Youngsville hammered away at the rim in first and third quarters to gain a valuable lead.

In first canto, Eagles led Tidoute 16-7 and with a 20-9 battering in third stanza, the Eagles collared a 49-30 lead. In fourth quarter, the visiting quintet outbucketed Youngsville 18-14, and also led in the second period 14-13.

Nine players registered points for the winners with Agnew's 15 followed by Fehman pooling 12, led the Eagle scoring pack. Fehman meshed 21 for Tidoute.

In the preliminary, Baby Eagles out-meshed Tidoute Juniors 47-32.

Coming onto the floor after halftime with a 30-20 lead, Northern Area gained little ground as West Forest deadlocked scoring attempts 8-3. A whirlwind fourth quarter pushed the Knight score to 53, far from the reach of West Forest with 23.

The loss was the third in league competition for West Forest.

Kenny Williams led scoring drive for the winners, chipping in 14, Denny McNally sank 13 in the basket and Al Ludwick posted 12. W. Greathouse pushed 10 through the hoop for West Forest.

Knight Jayvees downed West Forest 42-20.

Youngsville will be idle until Friday night when they travel to Spartansburg for a league

tilt. Northern Area hosts Kane Wolves Tuesday in a benefit contest.

Fighter Expires After Losing a One-Sided Bout

HOUSTON, Tex. (AP) — "He promised me that if he lost this fight he would quit and take care of me and the baby," said the young widow, who is an expectant mother.

Pretty Mrs. Nan Davis, 20, cheered for husband Lynn, 21, as he climbed into the ring to face Billy Strother in the welterweight finals of the Houston Golden Gloves Tournament Saturday night.

Strother had four years of amateur boxing experience to Lynn's two. After the first round, the edge was evident.

Davis took several good blows from his short, stocky opponent and appeared unable to defend himself. Referee Ernie Taylor stopped it.

"When he came off the ring he was smiling," Mrs. Davis said. "Then after he sat down, he leaned back and suddenly turned white as a sheet."

Doctors at nearby Jefferson Davis Hospital pronounced him dead a few minutes later.

"Lynn promised he would quit fighting," she said, "but neither of us really believed he would."

Dr. Joseph Jachmerek, the county pathologist, said he found evidence of "acute heart failure" but the cause of death would not be established for about a week.

A teammate broke the news of Davis' death to Strother, 22. He appeared stunned.

"This is something I'll have to live with the rest of my life," he said. "I'll probably never fight again."

WEEK'S BOXING

By THE ASSOCIATED PRESS
Benny Parot of Cuba and Victor Zalazar of Argentina, whose wild Dec. 15 brawl was the talk of boxing circles, meet again Monday on the reopening show at St. Nicholas Arena in New York.

The only TV show of the week originates in Washington on Wednesday when Lahauri Godin of Algeria boxes Eddie Perkins of Chicago. It will be carried on ABC-TV.

Don Jordan, recently crowned world welterweight champ, takes on Alvaro Gutierrez of Mexico City in an over-the-weight match Thursday at Los Angeles.

It will be the first bout for Jordan since he lifted the title from Virgil Atkins, Dec. 5.

Pleasantville Scores Win, Heads UAV Race

Pleasantville remains the only member of Upper Allegheny Valley League unbeaten after they downed previously unbeaten Spartansburg Friday, 45-42.

Sparta got the jump on Pleasantville in first period with a 13-6 lead which they held through a 12-12 second canto.

Mangel led the winners' scoring with 15. Mallory sank 12. For Sparta Groc collected 21—half of the final tally.

After a non-league battle Tuesday, Pleasantville will host Northern Area Friday. Sparta will play host Youngsville Friday.

BATTLE OF THE UNBEATENS IN BEATY TONIGHT

It's the battle of the unbeaten tonight in Beaty gym. Warren Dragon grapplers (2-0) and Erie Strong Vincent (2-0) clash on the mats this evening in what promises to be the biggest test for the local wrestlers so far this season.

Visiting Gem City squad brings with them two undefeated boys—Jerry Haise (85 lbs.) and Rich St. John (154).

In Erie City standings, St. Vincent is leading the pack 5-0.

Dragon Coach Hal Miller said today that there will be plenty of trouble in store for members of both squads. It's a battle of the unbeaten, and one team has to lose.

Warren, in the meanwhile, is holder of three lopsided wins against no losses. Defending Section II champs, Dragons look like they're well on their way for another crown.

Starting lineups are:
105—Dean Lester vs. Haise
103—Rich Cummings vs. Magoon

112—Tom Steeman vs. Holden
120—Gail Page vs. McCall
127—Craig Brian vs. Rhoades

Substitute Foul Shot Sinks For Franklin's Victory

A sophomore substitute's foul shot gave a 56-55 victory to Franklin Knights over Meadville Bulldogs Friday with seven seconds remaining in the game.

Jack Schosser, who played in the game only 25 seconds, sank the winning point for Franklin.

The win deadlocks Warren and Franklin in first place in Section II, moving Meadville to second with Titusville.

Pistons Lose, Hawks Bow in YMCA Junior

Knicks flipped Pistons for a 41-32 win and Celtics raided Hawks 36-23 in YMCA Junior League cage action Saturday.

Johnson and Crump each dumped in 14 for Knicks. Peterson sank 12 for Pistons. Colter drilled 9 through the hoop for Celtics, Doug Wilson continued his high-average as he collared 19 for Hawks.

Erie Academy Blanks East With 58-50 Shade

A 37-point second half rally by Academy Lions gave them a 58-50 decision over Erie East Saturday.

Trailing by a 23-21 count at halftime, Dick Conner, Doc Blanchard and Jerry Miller led a second half surge that dropped the warriors into the league's cellar with a 0-4 mark. Academy is now 1-3 in City play.

Heading the scoring drive for Academy was Blanchard and Conner with 13. Norcross bucketed 11. For East, Klopfer sank

Sheffield Wolverines 5th AM League Victim of Port

Sheffield became another victim of Allegheny Mountain League leaders Port Allegheny Gators Friday night.

A fifth victory against no losses, Port Allegheny played host to Sheffield as they whipped the Wolverines 66-48.

A week ago, Sheffield scored a major upset in AML when they swept St. Marys Flying Dutchmen off the court.

Rabbit Pie With Burgundy

Young rabbits need only 1 to 2 hours of soaking in salt water to draw off the blood, but old cottontails are best soaked 12 to 18 hours to remove some of the gaminess which the oldesters acquire.

Cut rabbit into serving pieces, dredge in flour, season with salt and pepper and brown quickly in butter in a skillet. Add 2/3 cup Burgundy wine, 3 tablespoons finely chopped onion and 1/2 teaspoon garlic salt and simmer 10 minutes.

Transfer contents of skillet to casserole, add 1 four-oz. can mushrooms (including liquid), 1/2 cup canned peas and 1/2 cup liquid from them, 1/2 cup diced carrots, 1/2 cup diced celery and 1 pinch thyme. Then stir in 1 tablespoon flour which has been dissolved in 2 or 3 tablespoons cold water. Cover casserole and bake 1 hour in moderate oven (350 degrees). Remove cover, place baking powder-biscuits on top and continue baking 15 minutes in hot oven (425 degrees).

Quail and Beef Rissoles Here is a way of making a pair of quail feed fow. should you lack freezer facilities for storing the birds until you bag another brace!

Simmer the quail in water to cover until tender with 2 slices of onion, 1 four-inch piece of celery, 1/2 teaspoon salt and 1/2 bay leaf. Drain and chill. Pick meat from bone and cut fine.

Break 1 oz. dried beef in small pieces, cover with boiling water for 5 minutes, then press dry. Combine quail and beef with 1 cup bread crumbs, 1 teaspoon minced onion, 2 tablespoons minced celery, 1/2 teaspoon salt, 1/2 teaspoon pepper, 2 tablespoons water and 1 beaten egg. Form into small loaves and bake 30 minutes in moderate oven (350 degrees).

Serve with catsup or tomato sauce. To make the latter, press 1 cup drained tomatoes through sieve. Melt 2 tablespoons butter in skillet and in it saute 1/2 clove garlic minced 3 minutes. Make a roux by blending in 2 tablespoons flour, then add 1/2 cup liquid from tomatoes, the sieved tomatoes and 1 teaspoon salt. Cook 5 minutes. Four over quail and beef rissoles.

Moose Shank Mulligan Shank of moose makes an excellent mulligan to warm you to your toes on these cold January days. A 3 to 4 lb. cut is ideal.

Crack the bone and place in a large kettle with 5 cups water, 3 teaspoons salt, 1/2 teaspoon pepper, 1/2 teaspoon garlic salt, a pinch of thyme, a pinch of marjoram and 1 bay leaf. Bring to a boil, then simmer until meat is almost tender.

Add 4 or 5 potatoes halved and quartered; 2 stalks celery, 6 small onions and 4 medium carrots cut in half. Again bring to a boil, then simmer until vegetables are done.

Texan Walks Off With Top Prize in Buffalo Tourney

BUFFALO, N. Y. (AP) — It was a tough one to lose.

Ray Bluth fired a record average of 214.56 for 100 games in the gruelling All Star Bowling Tournament. He set pinfall records for the qualifier and the final.

But when they handed out the championship trophy and the \$5,000 cash prize for first place Sunday night, it was Billy Wulu, the towering transplanted Texan, who took the awards. Bluth was second.

Although Bluth, 31, spilled a record 13,726 pins in the 64-game final, while Wulu had 13,448, Wulu won the 18th annual tournament by the simple process of winning games. He outscored Bluth, 210-187, in the final game to cut short Bluth's late rally.

Going into the last game, Wulu had a nine-pin margin. He hammered five consecutive strikes to win the game and the championship.

Wulu, a member of the St. Louis Falstaffs, finished with 311-43 Petersen points, winning 43 games while losing 21. Bluth had 310-26 points as he compiled a 36-38 record. Bluth is also from St. Louis.

The defending champion, Don Carter of St. Louis, was fourth with 307-05 points. Lou Campi of Dumont, N. J., was third with 310-07.

Mrs. Marion Ladewig of Grand Rapids, Mich., won her seventh championship in the women's division handily. She averages 201 for 32 games and scored 149-33 Petersen points.

Donna Zimmermann of Akron, Ohio, was second with 143-00. The defending champion, Merle Matthews of Long Beach, Calif., finished 12th.

D'AMATO INTERESTED IN ELBAUM OFFER

It was learned in Erie Sunday that Don Elbaum wired an offer to Gus D'Amato, manager of heavyweight champion Floyd Patterson, concerning a guarantee to Floyd to meet the winner of the Boom-Boom Lester-Bert Whitehurst heavyweight boxing bout in Baltimore tonight. Elbaum is matchmaking the affair. D'Amato replied to Elbaum that he was very much interested and would be in Baltimore today to talk terms. Elbaum did not indicate who was putting up the guarantee. Don is expected at Times Mirror within a few days, at which time more information may be obtainable.

Labesky - Kolesar Star in Sheffield Win Over Kane

Don Labesky and Bob Kolesar once more sparked Sheffield Merchants to win in Northwestern Pennsylvania Independent Basketball League Saturday as the Sheffield five tripped a lively Kane Woodmen quintet 81-71.

The Merchants' unstoppable flashes hit the boards in first and second half for 42 points, Kolesar pushing 23 through the hoop in first half. Labesky meshing 19 in second half.

Kolesar connected for 14 out of 20 and 10 for 10 from the foul line.

In scoring division, Kolesar led with 38, Labesky had 23. For Kane, Novosel sank 19, Bergman pooled 14 and Johnson collared 10.

Next Saturday St. Mary's Legion will be guest of Sheffield Merchants at 8 p. m.

Art Wall Winner Of Bing Crosby Golf Tournament

By ALAN CLINE
PEBBLE BEACH, Calif. (AP)—Despite a \$6,000-victory in the Bing Crosby golf tournament, Art Wall Jr., may look up his pro golfing buddies for a little help.

The lean Pennsylvanian credits three colleagues for making him the year's leading money winner, but he didn't look that way Sunday on the final nine of the 72-hole extravaganza played over three courses.

Wall carded a final nine of 41 while Gene Littler was closing fast. Only a shot hooked into the Pacific on the 18th removed the San Diego battler from contention.

He was nine down and in third place when the pair started the final eight holes. By the 18th he was only one down.

Littler came to the par five 540-yard hole with Wall anything but sharp. He had three-putted both the 16th and 17th.

But with a national television audience looking, on Littler hooked his second shot into the ocean. He said he was not pressing, that he was trying for position for a good approach.

The TV program time ran out before the golfers putted but viewers must have known who would win.

Erie East Matmen Win Over Union City

East used undefeated Rich Arrington's pin over Union City's Ed Still in 32 seconds of their playoff match for a 28-22 win over Union City Friday.

Ed Thomas (103) and Len Seelinger (120) continued in the unbeaten class for Erie East, which will be guest of Warren in Beatty gym February 5.

Other victors in the sixth win (1 loss) for East were: 112—Carr; 127—Henderson; 138—Mitchell; 185—Arrington.

Dorothy Roe Says---

By DOROTHY ROE
Associated Press Women's Editor
NEW YORK (AP)—Fasten your seat belts, please, and observe the no-smoking signs. We're off on a modern fashion show, aboard a jet plane 30,000 feet up.

The passengers—two planeloads of them—are 200 members of the national fashion press, in New York this week for the spring showings of New York designers. They've already covered eight fashion shows during the day. Now they're embarking to see another, this time all wool and all up in the air.

The fashions are superb, the models tired but beautiful. But let's take a look at the passengers.

There's Betty Milburn, women's editor of the Tucson Daily Citizen, who would rather fly her own plane than eat, or even dance. She and her husband, who works on the same paper, want a plane they can park in their back yard.

Then there's Ivy Coffee, women's editor of the Oklahoma and Times, Oklahoma City, a tall, breezy blonde who thinks there's no business like newspaper business, and who runs a staff of nine, turning out a women's section of three to four pages daily, making over the women's pages for each of the paper's five editions.

Today's newswomen take to the air in more ways than one. For instance, there's Mildred Alexan-

News of Hollywood

By BOB THOMAS
AP Movie-TV Writer
HOLLYWOOD (AP) — The way John Compton talks, you'd expect to find him in a Western or maybe "The Real McCoy's." Here's how he describes how he came to Hollywood:

"Well, sir, I was out on a ridge in the moonlight with this purty girl down in Tennessee. She looks up and ends says, 'John, yer jist handsome enough to be a movie star.' That was enough for me. The next day I told my mammy and pappy goodbye and started for Hollywood."

No cowpoke or hillbilly is Compton in the TV world. He plays the lead in "The D.A.'s Man," NBC's new Saturday night crime show produced by Jack Webb. Rangy, squarely built Compton is the wily undercover agent who adopts a variety of guises to ferret out criminals for a New York district attorney.

John tells a colorful story. But some of the things he says appear to be true.

He did come to Hollywood 15 years ago in search of the fortune which is only now materializing.

He had a contract at Warner Brothers for a couple of years, then the film depression struck and he was back on the streets again. But he persisted and later he had been doing well in TV films. He tried out for "The D.A.'s Man," but figured he didn't have a chance because he could never be mistaken for a New Yorker.

He figured without Jack Webb. The producer saw some film on Compton, had a couple of chats with him and ordered him signed. The actor told of the clincher, and you'll have to figure if it's legend or not.

It seems that Compton keeps bees. He has five hives of them at his home in the Hollywood hills.

"The morning I was to see Webb, I was cleaning out a hive of unfriendly ones," he said. "They stung me all over the arms about 200 times. I didn't even have time to take out the stingers. Webb asked me what they were and I told him. He said, 'If you can take that, you can take anything.'"

A.P. Death Record

CHICAGO (AP) — Dr. Ernest E. Irons, 81, widely known physician and a former president of the American Medical Assn., died Sunday of a heart attack. Dr. Irons, a general practitioner for more than 50 years, was former dean of the Rush Medical College in Chicago and one-time president of the Institute of Medicine in Chicago. He was born in Council Bluffs, Iowa.

ST. CHARLES, Ill. (AP) — Col. Edward J. Baker, 90, Philanthropist and sportsman owner of Greyhound, the famous trotter, died Saturday. Baker acquired the 38-million-dollar fortune of his brother-in-law, John W. (Bet a Million) Gates. Chicago financial tycoon, in 1918 after the death of Gates' wife.

CLEVELAND (AP) — William A. Stinchcomb, 80, who is given major credit for greater Cleveland's "emerald necklace" of parks, died Saturday. He was named in 1921 as first director of the Metropolitan Park System and served until his retirement in 1957.

GROTON, Conn. (AP) — Capt. George W. Nelson, 54, commanding officer of the Coast Guard Institute about four years, died Sunday of pneumonia.

CHICAGO (AP) — Mrs. Blanche Atwater, 81, widow of Bert L. Atwater, a former vice president of the William Wrigley Jr. Co., died Saturday.

BANGOR, Maine (AP) — Helen Elizabeth Patch, 67, a member of the French department at Mt. Holyoke College, South Hadley, Mass., for 36 years before her retirement, died Friday of a heart attack.

WHITE PLAINS, N.Y. (AP) — Joseph A. Quinlan, 69, vice president in charge of traffic for the St. Regis Paper Co., died Saturday. He was born at St. Remi, Quebec.

CAMERA SHOW IS CONTINUED

In response to many requests, the Warren County Black and White Photographers' group has decided to continue through Wednesday its exhibit at Wetmore Gallery in Warren Public Library. Despite the snow and many counter-attractions, attendance at this initial show was most gratifying, and the hours of 7:00 to 9:00 this evening, Tuesday and Wednesday have been set for its continuation.

JACKPOT WINNER

Teresa Fagley of 511 East street was the lucky 400 Block Jackpot winner at the weekly drawing along "The Stretch" Friday evening. The crowd was termed "not too large" which turned out to be the near-zero temperatures, winds and snow. Another \$100 Jackpot will be given away next Friday at 8:45 p. m.

GROTTO ROWLING

All members for Farrah Grotto, with their wives, are requested to meet at the new Riverside Lanes, in Struthers street, at 6:30 p. m. Tuesday to discuss and practice bowling for the new Grotto team. This session is not only for those who have bowled in the past but for those prophets and their wives who have never bowled, and will be given an opportunity to become acquainted with the sport and share in the fellowship of the game.

A few South players looked at their own tremendous spade strength and made the mistake of doubling. Once that mistake was made they were gone gossings because their partners would take over with their eight card club suits and never stop bidding.

The correct tactics with this type hand is to jump in spades to show that you can play the hand in that suit in spite of the adverse opening bid and most South players jumped to three spades.

Dave Carter of St. Louis who likes to live dangerously went one step further and jumped right to the spade game.

West doubled and made his normal opening lead of the jack of diamonds. If he had led a club Dave would have had to go down one trick but with the diamond lead everything was duck soup for him.

East took his ace and returned a small trump. It didn't matter what he did since all Dave had to do was to lose a trick to the king of trumps, draw trumps and concede a trick to the ace of hearts.

Doctors Seek Sixty Pints Blood for Tot's Operation

SANTA MARIA, Calif. (AP) — From time to time as Mike plays with his toys, the pain comes in his chest.

He knows, then, that it's time to go sit in a corner and wait for it to happen.

It always does.

Mike faints.

When he wakes up he rests until he is strong enough to play again.

This will go on physicians say, for perhaps another three years. Then Mike, now 4, will die. Unless he has an operation.

Mike has heart trouble. There is a hole between two of the chambers of his heart. This makes his heart work too hard. When it slows down Mike turns blue.

Doctors at St. Vincent's Hospital in Los Angeles are going to patch up Mike's heart March 27. To do this they'll need at least 60 pints of blood.

The going rate is \$25 a pint. The hospital will accept blood in trade at the rate of two pints for

each pint the boy needs.

The Santa Maria Times, after an appeal for blood donors, announced Thursday that 200 pints have been offered.

Most of the volunteers are men at nearby Vandenberg Air Force Base.

Maj. Francis L. Manning, whose 392nd Field Maintenance Squadron offered 82 pints, told the paper: "Count on us for all the blood that boy needs."

Other Air Force units and other civic and religious groups swelled the total to 200 pints. The pledges are still coming in.

The cost of the operation will be borne partly by the Crippled Children's Society, San Luis Obispo County. The rest is being raised.

Mike's mother, Mrs. Lynne Pappas, is divorced. She and the boy are living with her parents in nearby Arroyo Grande. She had to quit her job to take care of Mike.

Now a whole community has pitched in to help her.

Your Forest Ranger

L. E. Stoltz

At one time, elk were so plentiful in Pennsylvania that a county was named after them. Market hunters, man's greed and the complete lack of game laws crowded the last of these noble animals out of the Keystone State about 1875, and added the name, "elk," to the lengthening obituary of extinct birds and animals that were once native to Pennsylvania.

The early English colonists rejected the Shawnee Indian name of "wapiiti" for these great beasts. Instead, they preferred to use the name of the European moose which had long been called elk.

For thousands of years, vast herds of wapiiti had thrived in what is now the Commonwealth of Pennsylvania. Their only enemies were Indians, timber wolves, and mountain lions. Then came the white man with his rifle, plow, and axe. Habitat destruction by lumbering and forest fires, and herd destruction by market hunters accomplished in a few decades what Indians and predators could never have achieved. The elk in Pennsylvania were now only a memory.

After second growth timber clothed the hills of Elk County, and wildlife and outlaw hunting were brought under control, elk were re-introduced. The success of this experiment depended upon men of good will. No longer were they any predators to kill the young calves. There was food and natural shelter. Hunting was prohibited. The small herd had every reason to thrive.

Now, poaching threatens to wipe out the last remnants of the elk that have been re-introduced into the county that bears their name. It is inconceivable that the eye that looks through the scope on a rifle is unable to distinguish between

an elk and a white-tailed deer, but in Pennsylvania a man with a striped jersey was once shot for a zebra, a hunter dressed in a fur coat was shot out of a tree for a bear, and men have been killed because they were mistaken for ground hogs.

There have been three known illegal kills of elk in 1958 in the county of that name. This leaves an estimated herd of only eleven elk in the county. If this trend continues, it is not hard to predict the fate of the elk herd. No amount of law enforcement can entirely prevent illegal kills. As long as the vicious and the incompetent have the run of the woods, there will be violations of the game laws. Few violators escape being apprehended, but neither a fine nor imprisonment can bring back the elk that crashes to the ground with a high powered bullet through its vitals. The price of liberty is eternal vigilance. The same price must be paid by sportsmen and other men of good will in helping law enforcement officers to cope with this problem of illegal kills if the musical bugling of the wapiiti, or American elk, is to be heard in the forest glades of Elk County.

LUDLOW

Mr. and Mrs. Vernon Hallberg and family have been callers at the Arthur Christenson home.

A 3/c Richard Carlson, son of Mr. and Mrs. Stanley Carlson, has been home on leave from Lackland Air Base in Texas and will leave next Monday for George Air Force Base in California.

Birth Record

In Somerset County Friends here have received announcement of the birth of a son on January 11 to Mr. and Mrs. Elvin Holtschoppe, of Somerset county, the new arrival weighing eight pounds and two ounces. During the war years, Mr. Holtschoppe was employed as a milk tester in Warren county and his wife was also locally employed. They now operate a dairy farm.

Boyle's Column

By HAL BOYLE

NEW YORK (AP)—Hollywood's most eligible bachelor gal is ready to say "I do."

But the sea-green eyes of Kim Novak still haven't sighted the right guy on the horizon.

"I'd like to be fulfilled as a woman," she said. "What is a woman without the right man? I'd like to marry and have children."

"But marriage isn't something to rush into just because it's popular or the thing to do. I want more than a good companion, and I want to be more than a good companion."

"Marriage is companionship — plus. You have to give all that you are, and I am prepared to do that."

Anyone particular in mind?

"No," she said. "But I'm not really worried about that. It will happen, I feel sure. And meanwhile it's a nice life, being a bachelor."

Actually, Kim gives the impression of being somewhat lonely and not sure whom she can trust. In five years and 10 pictures the slender blonde ex-model has soared from obscurity to become one of filmdom's top 10 stars at the box office.

Now she is paying the price all pay who stand in the limelight, the price of feeling misunderstood, of being gossiped about, or having her ability questioned.

Shy by nature, she is still a bit uneasy in the role of glamour queen. She also is weary of gossip column tidbits linking her with men she never has met in night clubs where she never has been.

Seated on a chaise longue in the pink dressing room in the Bronx studio of her latest film, Paddy Chayefsky's "Middle of the Night," costarring Fredric March, she talked of her troubles.

"I have a feeling this is going to be a good year," she said. "Last year was such a bad year—so treacherous—this has to be a good year."

"They had me tied up with every man I ever heard of. That's what I get for being single. Maybe I should have got married when I first went into pictures. They let married women alone."

"It doesn't bother me any more what people say. Oh, yes, it does, too! One day last year when I went on the set I just broke out crying. But I finally got exhausted with it."

"I used to be all exposed. Now I'm covered up."

Some of the things her critics and detractors say about Kim is

that she is moody, temperamental, and that her glamour lies wholly in her beauty and not at all in her acting ability.

But her present film crew is behind her to a man. And Chayefsky, no easy one to please, praises Kim.

"She's wonderful to work with, completely cooperative, not at all moody or temperamental," he said. "She has an amazing talent. She is a fine actress."

Kim said of her acting and herself: "It is what people like that is important to your career. They judge your ability, not you."

"I don't like professional things. It's kind of an insult to me when somebody says, 'You're a real pro.' I don't want to be a pro. I don't want to be systematic. It's boring when everything is pinpointed and in its place. I don't like life in a set pattern, or perfect people, or the manufactured look. I like the home-made touch."

As to glamour, Kim said: "I'm sure most people don't think of glamour as just looking beautiful or being beautifully dressed. Glamour is interior."

"It's either in you or it isn't. You can dress up glamour or add to it, but you can't take it away or cover it up if it's really there. I hope not, anyway."

A big star, Kim Novak, and also a nice kid looking for truth in a world of glitter.
